

Translational Expertise in **Pain Management**

The first multidisciplinary platform  
dedicated to **analgesics**

# MISSION & OBJECTIVES

Analgesia Partnership Services:  
Translational Expertise in **Pain Management**

---

## OUR MISSION

---

- We provide our clients with a customized partnership to translate **new concepts** into **innovative pain treatments**.

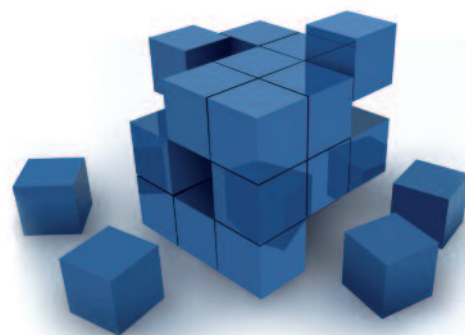

## OUR OBJECTIVES

---

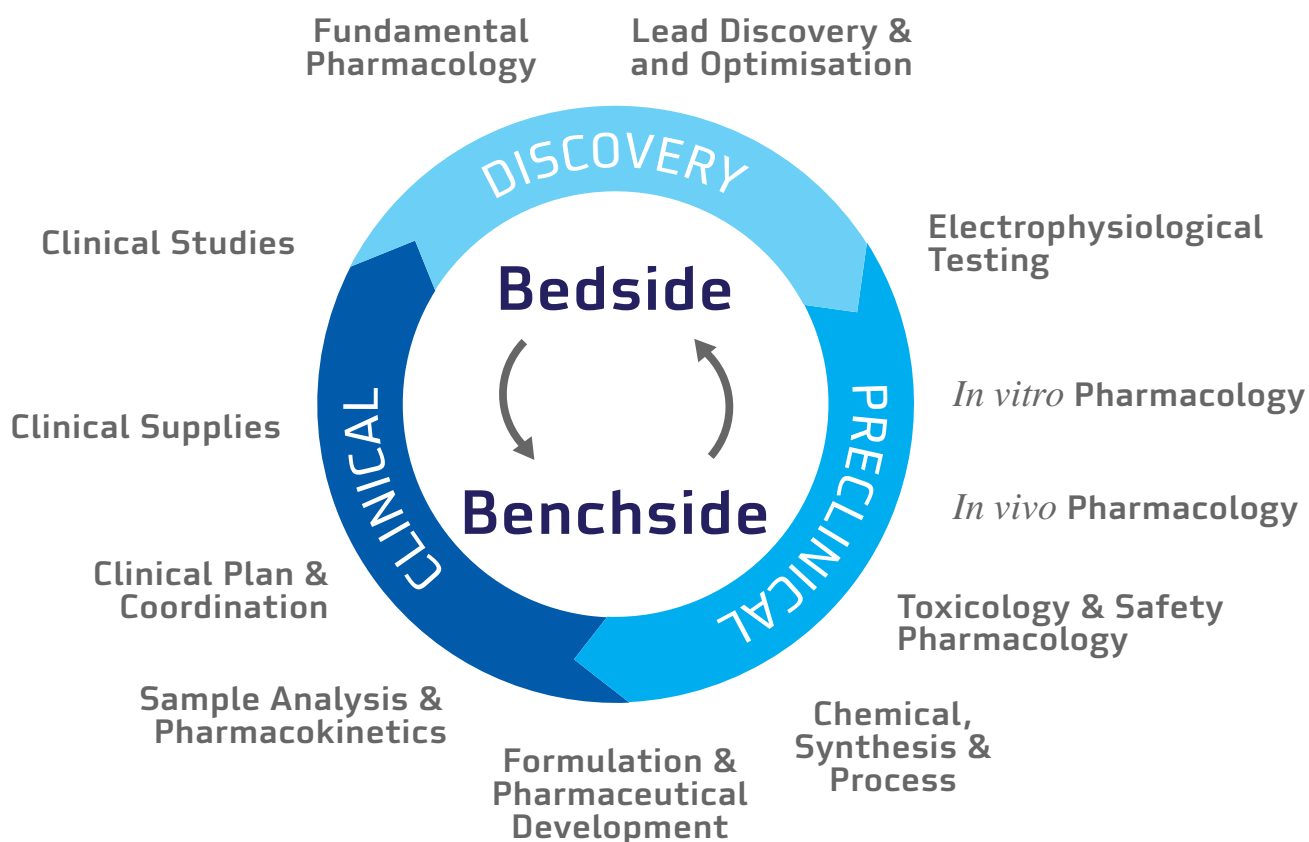

- To be recognized as the leading partner for the development of innovative analgesics
- To keep clinical needs at the heart of our R&D approach to offer relevant services
- To contribute to a better quality of life in patients suffering from pain

# SERVICES

Multidisciplinary **expertise** bridging the gap between **preclinical** and **clinical** services

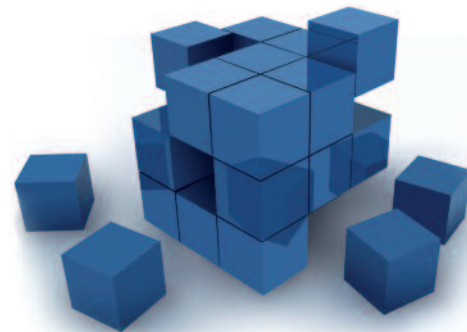

A unique integrated **platform of discovery, preclinical** and **clinical** services, fully dedicated to Research & Development of products in **pain management**.

“Our expertise benefits academic & industrial partners in human/animal health and food industries”

Multidisciplinary **expertise** bridging the gap between **preclinical** and **clinical** services

---

## YOUR EXPECTATIONS

---

- What if my drug-candidate had **analgesic properties**?
- Need to **speed up** the discovery-to-clinic race?
- Preoccupied by **reliability** and **predictability** of your results?
- Wish my project would be nurtured throughout by **experts**?

## OUR SOLUTIONS

---

- **SCIENTIFIC CONSULTING**
  - Project evaluation & positioning
  - Preclinical & clinical development plan
  - Expertise at the forefront of scientific progress
- **PRECLINICAL & CLINICAL PAIN PROFILING**
  - Innovative and predictable pain models
  - Lead selection
  - In-depth validated protocols
  - Seamless link between preclinical & clinical teams
- **DRUG DEVELOPMENT STUDIES**
  - Complete & comprehensive services for all R&D steps (Mechanism of action / CMC / PK / toxicology...)
  - Regulatory & quality support throughout drug development
  - A customized project team based on selected services

### **One-Stop-Shop**

A single platform, multiple entries...  
... get in and select the services you need!

A complete range of **experts** throughout the **R&D steps**

---

- Analgesia Partnership was founded in 2008 as a result of the outstanding dynamism of academics and private companies bringing together their complementary cultures.
- The Cluster was accredited “Cluster of Excellence” by the Auvergne Regional Council in June 2010, and thus benefits from the commitment of Regional, National and European Authorities and Economic Development Organization.

- Analgesia Partnership is a unique worldwide initiative having designed the 1<sup>st</sup> multidisciplinary platform dedicated to analgesics and powered by a Public-Private synergy ranging from drug discovery to clinics.
- Novelty of this platform lies in its strong expertise on preclinical <-> clinical translation based on animal & human pain models, thoroughly validated as relevant and predictable.

# COMMITMENT

A **Platform** based on Scientific and Cultural **Synergies**

---

## WE COMMIT TO PROVIDING YOU WITH:

- Best in class preclinical & clinical services to reveal the pain profile of your candidate
- Customized and flexible services, with a single contact dedicated to project coordination and a team fostering your project to cross the critical steps of development
- Academic and private experts, bringing together their cultures to empower internal R&D at the forefront of innovation
- Cutting-edge facilities and highly skilled staff
